# MULTIHULLS

REPORTING ON CATAMARANS AND TRIMARANS WORLDWIDE SINCE 1975

[www.MULTIHULLSMag.com](http://www.MULTIHULLSMag.com)

The image shows the interior of a modern catamaran deck. In the center, there is a wooden dining table with four matching chairs. The table is set with plates, glasses, and a small bowl. To the left, there is a built-in white sofa with cushions. To the right, there is a wooden counter with a built-in white sofa underneath it. A vase with white flowers sits on the counter. The deck has a white floor and a white ceiling with skylights. The ocean and a distant island are visible through the open sides of the deck.

## *The New Bali 4.3 MY*

***Also in this issue:***

Choosing the Right Insurance Carrier • Build it Where? • SmartTri40 • Extreme in Sydney • Orion

This is a three-day class with extensive time on the water, and a great way to enjoy San Diego water and weather, all while learning something too! This entire class is taught on one of our large cruising catamarans (Seawind 1160, Fountaine-Pajot 36 or similar), and provides students with the certification they need to qualify to charter these kinds of boats in more exotic destinations (depending on experience).

Price: \$995.

### **ASA 114 Catamaran Certification January 30-31, 2016**

The ASA 114 Cruising Catamaran Class will teach you the skills that are necessary to safely operate a large catamaran. There are significant differences in how multihulls function as compared to a monohull sailboat.

This two-day course (9 AM to 5 PM each day) will have you prepared to charter these exciting boats in many of the world's finest cruising areas. Except for special requests, we teach most of our advanced classes (such as ASA 114 Cruising Catamaran) on full-size catamarans. Examples are the Seawind 1160 or Moorings 3800. These are the size and type of boats used in bareboat charter programs around the world. Another important difference with our classes

is that we limit class size to 4 students. This assures that you get plenty of time at the helm during this 2-day class.

**General Description:** An advanced cruising standard for individuals with cruising experience. The individual can act as skipper and crew of a 30-50 foot multihull sailboat by day in coastal waters. The standard includes those skills unique to a 30- to 50-foot multihull. The price below includes the second day of sailing (4-person minimum).

**Prerequisites:** Basic Keelboat (101) and Basic Coastal Cruising (103). The Bareboat Charter Standard (104) is also a prerequisite and can be attained either by itself prior to 114, or as a combo class (this is not a combo class, however). In either case, all material in both standards (104 & 114) must be taught and tested before 114 can be awarded. You should read "Multihull Cruising Fundamentals" before the start of class. **Note:** You may take this class for ASA Certification or, for experienced sailors without ASA training, take it and receive a Certificate of Completion from us.

Price: \$649.

## **Hudson Yacht and Marine Acquires Jaguar Catamarans International**

The recent acquisition of Jaguar Catamarans International by Hudson Yacht and Marine represents a global expansion for the newly branded Hudson Power Cats and

a bright future for Jaguar Catamarans with new models coming to market soon.

"We are delighted with our new acquisition," said president, Paul Hakes. "The purchase of Jaguar builds on the recent success of the Jaguar 48 luxury power catamarans sold into the European market.

Buying this company means we can introduce new designs and new models in Europe faster, thereby boosting Jaguar's presence in this rapidly growing sector. We will expand outside Europe and launch into the U.S. and global markets under the new brand of Hudson Power Cats, which premiered at the 2015 Ft. Lauderdale International Boat Show."

Hudson Power Cats will be represented in the USA by Denison Yacht Sales with 12 offices throughout the country. Jaguar Catamarans International continues to represent and sell the European-styled power cats throughout Europe.

## BALI 4.3MY

### The First Boat in the Motor Yacht Range

A genuine yacht featuring contemporary design, the BALI 4.3 MY benefits from all the innovations already developed for the BALI 4.3 sailing catamaran. A flush-decked living area of over 30m<sup>2</sup>, panoramic views, a real lounge area with salon table and L-shaped bench seat on the flybridge, exceptional natural ventilation, etc.

The nautical design skills of Catana's R&D team has concentrated on comfort under way, reduced weight and improved fuel efficiency thanks to the two low-revving Yanmar motors. The hull designs have been calculated and optimized to give a drastic reduction in fuel consumption by limiting the effects of drag. Low fuel consumption will allow you to cover an average of 1,500 miles with 1,500 liters of diesel. A real revolution in fuel consumption, which will be much welcomed by motor yacht owners who limit their boating due to high fuel costs.

<http://www.bali-catamarans.com>

## A Revolutionary Cruising Catamaran with Unique Innovations

**Innovation:** *A loft with a panoramic view over the sea*

The BALI 4.3 MY is characterized by having a single area cockpit/saloon, with a totally flush deck of 30m<sup>2</sup>, entirely free of bulkheads, and accessed by a huge glass door which is entirely retractable on electric struts. To go from “cozy” to “loft” mode in a flash, for your panoramic view over the sea...

<https://www.youtube.com/watch?v=QaybOxj9a58>

**Relaxation:** *Oversized outdoor living spaces*

A forward cockpit with dining area as well as a huge sunbathing area (18m<sup>2</sup>) in place of the traditional trampoline.

Extra living space with saloon, lounge table and sunbathing area on the flybridge.

**Comfort:** *Live inside as you would outside*

The BALI 4.3 MY benefits, as does its sailing brother the BALI 4.3, from exceptional natural light. Large retractable windows bring an unequalled amount of fresh air into the saloon, as well as panoramic views, and the many port lights in the hulls ensure exceptional natural ventilation.

The technical equipment will satisfy the most demanding, with a latest generation galley forward. For cooking facing the sea!

#### Bali 4.3 MY Specifications

Length Overall .....	43 ft / 12,85 m
Beam Overall .....	23,35 ft / 7,12 m
Displacement (light) .....	10,8 t
Displacement (max).....	14,8 t
Draft.....	2,11 ft / 0,9 m
Water .....	211 us gal / 800 l
Fuel.....	422 us gal / 1600 l
Engines.....	2 X 160 hp
Architect.....	Berret-Raccoupeau Yacht Design

**Unique Characteristics:**  
A level of self-sufficiency and living spaces without equal in its class, 3 or 4 cabin versions, a completely open platform.

**Practicality:** *A unique level of self-sufficiency for a 43 footer*  
With tanks for 800 liters of water and 1600 liters of diesel, a 615 liter American-style fridge with ice maker

and chilled water dispenser, a latest-generation fully-equipped galley, and light weight (10 T), the BALI 4.3 MY will take you further and for longer than you ever dared dream. **MM**
